

Classic-Craft® Premium Entryways

THERMA TRU®
DOORS

- Extraordinary in every detail.

See the difference.

Discover architecturally correct designs, exclusive glass options and rich, authentic finishes.

Feel the difference.

Experience the integrity of a solid, precision-engineered entryway built for long-term durability, stability and peace of mind.

Classic-Craft® Premium Entryways

An inspired blend of
precision engineering
and architectural character.

Design your dream entryway.

A premium entryway that's truly unique and uncompromising in every detail. One that blends precision-engineered features with architecturally correct details to produce an entryway that performs as exceptionally as it looks – instilling confidence and peace of mind.

Classic-Craft's five unique collections offer authentic details, plus an exclusive array of beautiful decorative glass designs that can be customized to complement a home's style and transform the entryway into a true work of art.

Everything about a Classic-Craft entryway looks, feels and sounds like an authentic solid wood door. Plus, durable, energy-efficient, low-maintenance features make it a smart long-term investment. And it's rated a *Consumers Digest* Best Buy.

Experience the difference.

Perhaps best of all, Classic-Craft is from Therma-Tru, a preferred brand among builders and remodelers.* Therma-Tru introduced the world to fiberglass doors and continues to make products that are better and more beautiful every year, meeting Therma-Tru's high standards.

In the pages that follow, you'll discover just how unique the Classic-Craft collections are to the industry. And how much more it can offer you in making your dream entryway a reality.

Authentic in every way. Beautiful beyond compare.

Here's a premium entryway that can truly express your personal style. With our Classic-Craft collections, you can customize your entryway with a choice of four wood grains or a smooth surface that you can easily stain or paint for virtually unlimited color options both inside and out. And every door offers architecturally correct proportions and intricate decorative glass options, with each detail evoking a sense of handcrafted elegance.

Compare for yourself.

Premium – right down to the edge.

A solid hardwood square edge delivers a genuine wood appearance.

Standard fiberglass bullnose edge.

The bullnose profile, typical of other fiberglass doors, detracts from the authentic wood look.

The look of real wood. Realistic wood grains that are virtually indistinguishable from high-grade wood doors, thanks to Therma-Tru's AccuGrain[®] technology.

Details that define a custom door.

Crisp, handcrafted elegance creates embossments that are deeper than standard fiberglass doors.

Architecturally correct for true classic beauty. Doors designed to be architecturally correct, with proportions modeled after classic architectural principles, to create a more premium entryway.

Up to 25% wider panels*

Classic-Craft. Premium Door

Standard Fiberglass Door

*Compared to other standard fiberglass doors.

Premium
performance
in every detail.

Knock on it, open and close it, and you'll appreciate how a Classic-Craft® entryway simply makes a home feel strong, safe and secure. There's no mistaking its quality construction and outstanding performance. Every Classic-Craft premium entryway is crafted from the finest materials to accurately replicate the feel and integrity of a custom wood door, with each detail refined to ensure total peace of mind.

Heavier Construction

Classic-Craft products provide the heft and protection of custom wood doors. Incorporating components like a laminated wood lock stile that runs the entire length of the door, they offer construction that's 20% heavier than standard fiberglass doors* – providing excellent stability and security.

Feel the difference.

A complete door system.

Each of the recommended components in a Classic-Craft premium entryway is designed to work together to complete the door system, providing a longer-lasting, higher-performing entryway.

Classic-Craft entryways are also available with our exclusive Tru-Defense® system, which integrates specific components engineered and tested to deliver outstanding protection in all kinds of weather conditions – visit www.thermatru.com for details.**

Multi-point locking system provides greater security and stability.

Ball-bearing hinges provide more support and smoother performance.

Rot-resistant mullions help prevent moisture-related rot and insect damage.

Rot-resistant brickmould and jamb prevent warping, twisting and rotting.

Composite adjustable sill helps prevent moisture and air infiltration.

7-shape corner seal pad completes our patented jamb assembly, creating an air pocket to help prevent moisture and air infiltration.

Foam-filled compression weatherstrip helps seal out moisture and air infiltration. Its friction-fit installation allows hassle-free removal and replacement.

Dual-bulb bottom sweep helps prevent moisture and air infiltration.

1 Enhanced Weather Resistance

No more worries about rotting, warping or twisting. Classic-Craft premium entryways are tested and designed to resist extreme weather conditions and the damaging effects of moisture. Both the top and bottom of the door are protected by composite rails for a longer-lasting entryway.

2 Solid Security

Classic-Craft premium entryways feel solid and close with authority. A 4-1/8" wide piece of laminated strand lumber (LSL) wood runs from the top to the bottom of the locking side of the door to add mass and rigidity, giving the door weight and a natural wood feel.

3 Excellent Durability

Built to stand up to the elements and years of wear, Classic-Craft's fiberglass skins are thicker than standard fiberglass doors to provide added durability and better long-term performance.

4 Higher R-Values

Classic-Craft premium entryways contribute to an energy-efficient home. A polyurethane foam core provides up to four times the insulating R-Value of wood.***

5 Edge-to-Edge Moisture Protection

Stop moisture at every turn – and along every edge. Classic-Craft premium entryways have continuous hardwood edges that resist moisture penetration.

*Compared to other standard fiberglass doors.

**Therma-Tru is not responsible for the assembly and installation of the components of Tru-Defense door systems.

***Comparison of fiberglass to wood doors (both without glass).

Stunning, intricate glass. Beautiful in every way.

More than 10%
wider glass*

**Classic-Craft®
Premium Glass**

Standard Glass

Thanks to more than 13 exclusive decorative glass families and multiple sidelite and transom configurations, you'll find the ideal style to enhance any home when you select a Classic-Craft premium entryway. High-end glass produces intricate, truly distinctive designs you won't find anywhere else.

- Classic-Craft glass is more than 10% wider*, welcoming more light into the home and creating a distinctive entryway.
- Species-specific and grained fiberglass lite frames seamlessly blend with the rest of the entryway.
- All Classic-Craft clear glass options are Low-E, providing long-term energy efficiency.
- All privacy and decorative glass products feature triple-pane construction that helps reduce outside noise while increasing energy efficiency.
- Any Therma-Tru® glass added to a Classic-Craft entryway is covered by the same outstanding limited lifetime warranty.

*Compared to other standard fiberglass doors.

Realize the confidence that comes from a smart investment.

Where there are dream homes, there are Classic-Craft® premium entryways.

Everything about Classic-Craft has been designed to create a premium, elegant entryway that provides unsurpassed strength, efficiency and long-term performance; so you can feel confident that Classic-Craft is a smart investment for years to come.

As the largest line of ENERGY STAR® qualified entry doors from Therma-Tru, Classic-Craft contributes to an energy-efficient home. And it's rated a *Consumers Digest* Best Buy, for its exceptional warranty, quality of materials and construction, and resemblance to a real wood door. Plus, because Classic-Craft entryways are made of durable fiberglass, they're weather-resistant and low-maintenance – ideal for today's active lifestyles.

Classic-Craft sidelites go beyond ordinary.

Classic-Craft clear glass sidelites feature energy-efficient Low-E glass, and all Classic-Craft sidelites are flush-glazed. This process integrates the glass during the manufacturing process, eliminating the need for a separate lite frame. The result: A truly seamless, consistent appearance and a high-performance weather seal.

We place a lot of emphasis on achieving the highest level of customer satisfaction.

That's why all Classic-Craft entryways carry a limited lifetime warranty. Should any issues arise during or after the installation of a Classic-Craft premium entryway, we'll address them in a professional, timely manner.

Most Classic-Craft entryways are ENERGY STAR qualified, contributing to an energy-efficient home.

Visit www.thermatru.com for more information on Classic-Craft's warranty and ENERGY STAR qualified products.

Let Classic-Craft bring your entryway to life.

Join the millions of satisfied homeowners and building professionals who have already realized the confidence and peace of mind that comes with a Classic-Craft® premium entryway. We want you to be inspired by everything Classic-Craft has to offer and find the best choice for your home. Here are some considerations to keep in mind:

- What is the size of the entryway?
- Which direction does your home face?
- How much light or privacy do you want in your foyer?
- What is your home's architectural style?
- What is the personal style of your home's interior?
